

ENVIRONMENTAL, OCCUPATIONAL HEALTH, SAFETY and ENERGY POLICY

As an educational institution, one of our primary goals is to contribute to raising individuals who have a high sense of the environment, who respect nature and people, and adopt the principle of sustainable energy.

Furthermore, we are responsible for providing a healthy and safe environment for everyone on our campus, reducing our impact on the environment, protecting the natural balances and the environment on our campus, and ensuring the efficient use of energy.

Our students, their parents, our employees, visitors, suppliers, and subcontractors are part of this responsibility.

Within the scope of our Environmental and Occupational Health, Safety and Energy Management System, we declare and undertake to:

- Ensure the existence of information and resources necessary for the realization of the objectives and targets of the Management Systems,
- Fulfill the legal and other requirements related to our activities in order to protect the environment, create a healthy and safe working environment, and use energy efficiently,
- Comply with the conditions of the groups and organizations we are affiliated with,
- Support the acquisition of equipment and services that ensure efficiency in Environmental, OHS and Energy performance,
- Support design activities that consider the improvement of Environmental, OHS and Energy performance,
- Provide a healthy and safe work environment on campus in order to prevent injuries and health problems and fight against epidemics,
- Prevent the harm we give to the environment and the pollution caused by our activities to protect the flora and fauna surrounding us,
- Eliminate dangers and reduce risks by managing the OHS risks,
- Consult the employees and their representatives and ensure their participation,
- Ensure continuous improvement of Environmental, OHS and Energy performance and Management Systems.

Prof. Dr. Murat Günel
General Director
